

Miss Best and a country woman. Miss Best was getting her in position when she was snapped & did not intend to be in the picture. This woman rang the church bell for prayer meeting, at the time when the Japs forbade any meetings. She thought it was a time people ought to be praying so rang the bell and was imprisoned four months for it. As soon as she got out, she came straight to our house. & this picture was taken just outside the door.

ca. 1919
